STATINTL

Please accept this reminder of our conversation of December 24, 1974 concerning my interest in appealing the disapproval of my request for restoration of fifty hours of annual leave lost in 1973.

A recent Agency Notice would seem to suggest my request was disapproved on grounds not applicable to my case.

Attached are some facts that may assist you in advising me further on my appeal.

- a) My request for leave was in writing, and was approved by my supervisor, then Chief of the Career Training Program.
- b) The work that required giving up my leave, at the request of my supervisor, concerned scheduled interviews with non-Agency persons (private citizens) who had travelled hundreds of miles at government expense.
- c. My request for restoration of leave was approved by my supervisor and the Deputy Director of Training.

You may recall I mentioned that I retire on 31 December 1974 and that my home phone is [REDACTED]. You also advised me that you would inform me if Attorney [REDACTED] former Agency employee, was cleared for contact by me on this matter.
